

Chester Community Cycling Sessions

DO YOU...

Enjoy cycling?

Want to meet like minded people in your area?

Want to see more of your area in a safe environment?

Want to improve your health?

Chester City Council in partnership with Groundwork Wrexham are putting on a programme of cycle rides for the general community to access within the Chester district. The aims of the cycle rides are to encourage those who enjoy cycling with other people, like shorter rides or are looking to improve their confidence on their bikes.

The group is run by trained leaders who offer support and guidance to riders during the sessions. The routes designed are manageable distances that have minimal or no traffic.
