

The Wheatsheaf, Dunham-on-the-Hill – 15th January 2012

Apologies! The official club reporter was absent for today's ride. The rest of us were ill-prepared for the task. It was lunchtime before Glennys reminded us about photos. Did anyone have a camera? Fortunately, Brian had one of those smart phones.

Andy was leading us today. We haven't seen much of him recently – too busy decorating rather than cycling. Would he get round ok? For the record, it was me who dropped off the back of the group several times.

It was bitterly cold to start. A heavy frost still down. I had been basking in southern Spain earlier in the week!

The six of us limped in to **Dunham**. I seem to think there was some kind of mechanical problem that delayed us. Was it Roy with a puncture?

Our numbers were swelled at lunchtime with the presence of both Glennys and Peter. There were one or two downsides to our visit. Why were we given a table so close to the children's playing area? And this is the **cup of tea** served at £1.70! It seems the machine cannot give a greater measure of hot water.

We did the customary **group picture** before setting off for home in bright and slightly warmer conditions.

Thanks very much, **Andy**. We look forward to more in your retirement.

Janet

It looked like a nice sunny day, though!
